## **About the Journal**

*International Review of Environmental History* takes an interdisciplinary and global approach to environmental history. It publishes on all thematic and geographical topics of environmental history, but especially encourages articles with perspectives focused on or developed from the southern hemisphere and the 'Global South'. This includes but is not limited to Australasia, East and South East Asia, Africa, and South America.

*International Review of Environmental History's* editorial board includes historians, scientists, and geographers who work on environmental history and the related disciplines of garden history and landscape studies. This methodological breadth distinguishes *International Review of Environmental History* from other environmental history journals, as does its attempt to draw together cognate research areas in garden history and landscape studies.

The journal's goal is to be read across disciplines, not just within history. We encourage scholars to think big and to tackle the challenges of writing environmental histories across different methodologies, nations, and timescales. We embrace interdisciplinary, comparative, and transnational methods, while still recognising the importance of locality in understanding these global processes.

The Centre for Environmental History at The Australian National University sponsors the journal, and ANU Press will publish hard copy and free electronic versions of the journal. It is also supported by the Historical Research Unit, the Faculty of Arts and Social Sciences, and the Environmental Research Institute of the University of Waikato, New Zealand: [www.waikato.ac.nz/eri](http://www.waikato.ac.nz/eri). Our open-access policy means that articles will be available free to scholars around the world, ensuring high citation rates and impact in and beyond the field of history.

*International Review of Environmental History* is happy to consider future special issues focusing on themes drawn from conferences or collaborations.

## **Submission Details**

Please send article submissions or abstracts to the Editor, Professor James Beattie, Science in Society, Victoria University of Wellington, P.O. Box 600, Wellington 6142, New Zealand. Email: [james.beattie@vuw.ac.nz](mailto:james.beattie@vuw.ac.nz).

Abstracts should be no more than 200 words, and include a list of keywords. Articles should be in the range 5,000 to 8,000 words (including footnotes), although longer submissions may be considered after consultation with the Editor.

Style and referencing: please use footnotes in Chicago Style, and follow British spelling. For more details on Chicago Style, please see: [www.chicagomanualofstyle.org/tools\\_citationguide.html](http://www.chicagomanualofstyle.org/tools_citationguide.html).
