*Human Ecology Review* is the official journal of the Society for Human Ecology and is published in open-access online format by ANU Press ([press.anu.edu.au](http://press.anu.edu.au)). It is also available to member and institutional subscribers in hard copy format. *Human Ecology Review* is indexed or abstracted in *Environment Abstracts*, *Environment Index*, *Environmental Periodicals Bibliography*, *Linguistics and Language Behavior Abstracts*, and *Sociological Abstracts*. Archived back issues are available from the Society for Human Ecology website, [societyforhumanecology.org](http://societyforhumanecology.org), JSTOR and via ProQuest.

Send submissions in electronic format to [mstracker.com/submit1.php?jc=her](http://mstracker.com/submit1.php?jc=her).  
Please see instructions to authors on inside back cover.

## Information for contributors to *Human Ecology Review*

*Human Ecology Review* is a semi-annual journal that publishes peer-reviewed interdisciplinary research on all aspects of human–environment interactions (Research in Human Ecology). The journal also publishes essays, discussion papers, dialogue, and commentary on special topics relevant to human ecology (Human Ecology Forum), book reviews (Contemporary Human Ecology), and letters, announcements, and other items of interest (Human Ecology Bulletin). *Human Ecology Review* also publishes an occasional paper series in the Philosophy of Human Ecology and Social–Environmental Sustainability.

### Author instructions

Send submissions, following the guidelines below, to [mstracker.com/submit1.php?jc=her](http://mstracker.com/submit1.php?jc=her).

### Title page, abstract and authorship

When you access the *Human Ecology Review* manuscript submission portal at [mstracker.com/submit1.php?jc=her](http://mstracker.com/submit1.php?jc=her) you will be presented with a manuscript submission form. You will be instructed to enter the title of your manuscript, an abstract, and your and any co-authors names and contact details. The abstract should be 150 words or fewer and include four to six keywords. The abstract information will be used when soliciting for reviewers and should not contain any author identification.

### Reviewers

Please use the manuscript submission form's cover letter section to provide the names and contact information of three suggested reviewers for your manuscript.

### Manuscript

The manuscript should not exceed 6,500 words. Do not include author information. Please limit references to 50 or fewer.

The manuscript should be in the form of a single Word document file that includes tables and figures rather than sending multiple files. It should be in 12 point font, line spacing 1.5. The entire manuscript should be free of underlining or boldface type; use italics only for emphasis and in references (see below). Headings and subheadings should be flush left, sentence capitalization.

The Society for Human Ecology is based in the USA. Please use American spelling throughout and convert all measurements to SI units. Style followed is that of the *Publication Manual of the American Psychological Association* (APA style; [www.apastyle.org](http://www.apastyle.org)). The dictionary used is Merriam-Webster.

### Footnotes

Footnotes, not endnotes, should be used.

### Tables and figures

Tables should be clear and concise and able to stand alone; that is, complete headings and table notes should be used to clarify entries. Figures may be in color, but authors should be mindful of loss of resolution or clarity if figures are printed in black and white. All tables and figures must be referred to in the text. Authors must obtain copyright permission to reproduce any material that is not their own.

Although figures should be embedded in the original submitted paper, if your manuscript is accepted you will be required to provide professional-quality, high-resolution (at least 300 dpi) images in separate files.

### References

References should conform to APA style. See below; also see [www.apastyle.org](http://www.apastyle.org).

The list of references should be arranged alphabetically by author. Multiple citations by the same author(s) should be listed by name.

Citation of references in the text should follow the format Henry (1998) or (Henry & Wright, 1997) or (Henry et al., 1996, pp. 22–24) or (Henry, 1995, 1998; Wright, 1994). In-text citations should be in alphabetical order, in the same order in which they appear in the reference list. Papers with three or more authors should use et al. This is an exception to APA style.
