Table 3.1 Debt ratios of various enterprises in China: Benchmark regression . . .	58
Table A4.1 Prior and posterior distributions of parameters – full sample . . . . .	82
Table A4.2 Prior and posterior distributions of parameters – subsample: before 2009Q1. . . . .	83
Table A4.3 Prior and posterior distributions of parameters – subsample: after 2009Q1. . . . .	85
Table A4.4 Forecast error decompositions of the variances of output, consumption, investment and loans. . . . .	86
Table 5.1 Descriptive statistics of key variables, 2000, 2008 and 2013 . . . . .	101
Table 5.2 Regression results . . . . .	102
Table A5.1 Household registration policy classification and score method . . . .	109
Table A5.2 The distribution of sample farms, 2008 and 2013 . . . . .	110
Table A5.3 Regression results incorporating dummy variables for 2000 and 2008 . . . . .	111
Table 6.1 Comparison of standard employment and NSE . . . . .	120
Table 6.2 Proportion of labour union members in standard employment and NSE (per cent) . . . . .	121
Table 6.3 Proportion of labourers earning less than the local minimum wage (per cent) . . . . .	122
Table 6.4 Worker age distribution in standard employment and NSE (per cent) . . . . .	123
Table 6.5 Education distribution of standard employment and NSE labourers (per cent) . . . . .	123
Table 6.6 Factors influencing labourers' participation in NSE (probit model). .	124
Table 7.1 Number of Taobao villages and Taobao townships . . . . .	134
Table 8.1 Index system of technological and model innovation competency of listed companies. . . . .	146
Table 8.2 Innovation competency index of listed companies in China, 2017 . .	147
Table 8.3 Regional innovation advantages and shortcomings in innovative competency of Chinese listed companies, 2017 . . . . .	150

Table 8.4 Innovative competency scores of Chinese listed companies, 2017 . . .	153
Table 9.1 China's WTO commitments on banking services I . . . . .	167
Table 9.2 China's WTO commitments on banking services II . . . . .	168
Table 9.3 China's WTO commitments on insurance services I . . . . .	169
Table 9.4 China's WTO commitments on insurance services II . . . . .	169
Table 9.5 China's WTO commitments on securities . . . . .	170
Table 9.6 Development of foreign banks in China . . . . .	172
Table 9.7 Development of foreign insurance companies . . . . .	173
Table 9.8 Development of foreign banks, 2013–17 . . . . .	174
Table 9.9 Number of Sino–foreign joint venture insurance institutions, 2013–17 . . . . .	175
Table 9.10 Summary of listed company indicators . . . . .	182
Table 9.11 Baseline results . . . . .	183
Table 9.12 Results by firm ownership type . . . . .	184
Table 9.13 Results by firms' ROA . . . . .	185
Table 9.14 Results by firms' collateral . . . . .	186
Table 9.15 Results by finance institution survey . . . . .	187
Table 9.16 Regression results with banking sector liberalisation on WTO commitments . . . . .	188
Table 10.1 Sample distribution by institution . . . . .	196
Table 10.2 Number of branches starting to evaluate SME loans, by year . . . . .	197
Table 10.3 Number of branches starting to evaluate SME loans, by institution type . . . . .	198
Table 10.4 The proportion of branches not meeting the evaluation requirements for SME loan shares, by institution . . . . .	199
Table 10.5 Variable definitions and summary statistics . . . . .	200
Table 10.6 Impacts of evaluation of SME loans: Total effect . . . . .	201
Table 10.7 Impacts of evaluation on the growth rate of SME loans . . . . .	203
Table 10.8 Impacts of evaluation on the share of SME loans . . . . .	204
Table 10.9 Impacts of evaluation on the share of SME loans, by bank size . . . . .	205
Table 10.10 Impacts of evaluation on branches' nonperforming loans . . . . .	207

Table 10.11 Impacts of evaluation on branches' performance . . . . .	209
Table 10.12 Impacts of evaluation on branches' performance, by bank size . . .	210
Table 10.13 The effect of evaluation of SME loans on banks' lending outcomes . . . . .	211
Table 11.1 G-cubed model countries/regions in v.144 . . . . .	222
Table 11.2 Chinese policy package in 2018 . . . . .	225
Table 11.3 Overview of scenario assumptions. . . . .	227
Table 12.1 Preliminary statistics: Labour income by gender, circumstance and 'effort' . . . . .	245
Table 12.2 Determinants of labour earnings: Circumstance and effort . . . . .	247
Table 12.3 'Circumstantial' determinants of labour income by age cohort . . . .	249
Table 12.4 Inequality of opportunity in labour income and decomposition by circumstance . . . . .	249
Table 12.5 Probit regressions of 'efforts' determined by circumstances . . . . .	251
Table 12.6 Oaxaca–Blinder decomposition of gender labour income differential . . . . .	253
Table 13.1 Cases of blocked Chinese ODI projects . . . . .	269
Table 13.2 Characteristics of the cases of China's blocked ODI . . . . .	270
Table 13.3 Regression results of factors behind blocked investment . . . . .	280
Table 14.1 Chinese overseas iron ore investment, 2002–12 . . . . .	289
Table 14.2 Chinese iron ore LTCs, 2012 . . . . .	290
Table 14.3 Chinese overseas iron ore investment by country, 2002–12. . . . .	291
Table 14.4 Source of iron ore investment funding, 2002–10 . . . . .	294
Table 14.5 Source of iron ore investment funding by firm ownership type, 2002–10 . . . . .	295
Table 14.6 Summary of Moran's procurement scorecard. . . . .	301
