

# FIGURES

Figure 1.1. Christoph Lakner and Branko Milanovic’s ‘Elephant chart’ . . . . .	3
Figure 2.1. Seventeen Asia–Pacific countries ranked according to World Bank estimates of intergenerational earnings elasticity . . .	25
Figure 2.2. Intergenerational education transmission (extra years of education for each extra year of parent education). The intergenerational transmission of earnings is positively correlated with the intergenerational transmission of education among 15 Asia–Pacific countries . . . . .	31
Figure 2.3. Proficiency in mathematics among 14-year-olds in the United States is much higher for children with better educated parents . . . . .	34
Figure 2.4. Roemer’s equality-of-opportunity framework suggests organising test scores as cumulative distribution functions by family background, with achievement differences of similarly ranked students across groups indicating inequality of opportunity among Grade 8 students in the United States . . . . .	36
Figure 2.5. Roemer’s equality-of-opportunity framework suggests organising test scores as cumulative distribution functions by family background, with achievement differences of similarly ranked students across groups indicating inequality of opportunity among Grade 8 and Kindergarten students in the United States . . . . .	37
Figure 4.1. Annual GDP growth and cumulative poverty reduction . .	57
Figure 4.2. Gini coefficient, selected Asian economies, 1990s and 2013 or latest . . . . .	58

Figure 4.3. Income inequality decomposition by educational attainment . . . . .	66
Figure 4.4. Share of labour income in industrial value added, selected Asian economies . . . . .	68
Figure 4.5. Income inequality decomposition, urban/rural . . . . .	70
Figure 4.6. Urban–rural income gaps in selected Asian economies, 1990s–2010s . . . . .	71
Figure 4.7. Inequalities in provincial per capita incomes in selected Asian economies, 1990–2010. . . . .	72
Figure 4.8. Income inequality decomposition, province/region. . . . .	73
Figure 4.9. Combined contribution of spatial inequality to overall inequality in selected Asian countries . . . . .	74
Figure 4.10. Gini coefficient of per capita net household wealth, PRC, 1988–2012. . . . .	75
Figure 5.1. Gini coefficients and poverty headcount ratios in South-East Asia (per cent) . . . . .	91
Figure 5.2. Income inequality and trade openness in South-East Asia . . . . .	93
Figure 5.3. Income inequality and financial sector development in South-East Asia . . . . .	95
Figure 6.1. Total factor productivity, 1970–2014 (United States, United Kingdom, Australia and the OECD average) . . . . .	105
Figure 6.2. Total factor productivity, 1970–2014 (selected economies in the Asia–Pacific region) . . . . .	105
Figure 6.3. Industrial revolutions in history . . . . .	108
Figure 6.4. Price index of gross fixed capital formation in computing equipment (2010 = 100) . . . . .	112
Figure 6.5. Estimated annual shipments of industrial robots by regions. . . . .	113
Figure 6.6. Annual supply of industrial robots in the 15 largest markets in 2016. . . . .	113

Figure 6.7. Dependency ratios in selected Asian economies, defined as population aged 65 and older as a share of population aged 15 to 64, 1950–2100 . . . . . 117

Figure 6.8. Dependency ratios in selected Asian economies, defined as population aged below 14 as a share of population aged 15 to 64, 1950–2100 . . . . . 117

Figure 6.9. Minimum wages in selected countries divided by the minimum wage in China (2004–13) . . . . . 118

Figure 6.10. Ratios of labour productivity (real output per worker) in selected countries over labour productivity in China . . . . . 120

Figure 6.11. Percentage changes in US mean real income from the level in 1991, males above 25 years old (1991–2015) . . . . . 122

Figure 6.12. Changes in real hourly wages in China by skill level, constant 1995 yuan, 1995–2009 . . . . . 122

Figure 6.13. Gini coefficient pre-tax and pre-transfer and Gini coefficient post-tax and post-transfer in selected economies in the Asia–Pacific region . . . . . 123

Figure 6.14. Fixed broadband subscriptions (per 100 people) . . . . . 134

Figure 6.15. Mobile cellular subscriptions (per 100 people) . . . . . 135

Figure 6.16. 2017 Global Connectivity Index . . . . . 135

Figure 6.17. Networked Readiness Index . . . . . 136

Figure 6.18. Share of real investment in ICT capital in the total capital in selected economies . . . . . 138

Figure 6.19. Research and development expenditure (% of GDP) in selected countries from 1996 to 2015 . . . . . 139

Figure 7.1. Education trend: Full sample . . . . . 153

Figure 7.2. Education trend by gender . . . . . 155

Figure 7.3. Transmission coefficient: Full sample . . . . . 157

Figure 7.4. Transmission by cohorts . . . . . 158

Figure 7.5. Transmission coefficient by gender . . . . . 159

Figure 7.6. Education trend by Hukou . . . . . 161

Figure 7.7. Transmission coefficient by Hukou . . . . . 162

Figure 7.8. An illustration of decomposition . . . . .	163
Figure 7.9. Decomposition of transmission coefficient . . . . .	164
Figure 8.1. Gini coefficient of consumption expenditure (NSSO) . .	174
Figure 8.2.1. Growth rate of real MPCE by MPCE deciles (rural) . .	176
Figure 8.2.2. Growth rate of real MPCE by MPCE deciles (urban) .	176
Figure 8.3. Index of MPCE by groups (1983=100) . . . . .	177
Figure 8.4. Income inequality (IHDS) . . . . .	179
Figure 8.5. Gini coefficient of wealth (AIDIS) . . . . .	182
Figure 8.6. Inequality in Palanpur . . . . .	184
Figure 8.7. Growth rate in the agricultural and non-agricultural sectors (constant 2004–05 prices) . . . . .	186
Figure 8.8. Number of workers. . . . .	187
Figure 8.9. Percentage of informal workers by type of employment. . .	188
Figure 8.10. Workers’ wages and managerial emoluments in organised manufacturing . . . . .	190
Figure 8.11. Share of profits and wages out of net value added (NVA) in organised manufacturing (ASI). . . . .	191
Figure 8.12. Real wages of unskilled labour, 2011–12 prices. . . . .	192
Figure 9.1. Ratio of the elderly in the population . . . . .	208
Figure 9.2. Best-practice life expectancy . . . . .	208
Figure 9.3. The ratio and life expectancy of the elderly in Asian countries . . . . .	212
Figure 9.4. Benefits and payments by generations and government finance . . . . .	213
Figure 9.5. Discount rates . . . . .	218
Figure 9.6. Expected lifespan of each cohort (median) . . . . .	222
Figure 9.7. Consumption and generational accounting . . . . .	223
Figure 9.8.1. Components of generational accounting – benefits . . .	225
Figure 9.8.2. Components of generational accounting – payments. .	226
Figure 9.9. Macro-economic indicators . . . . .	227

Figure 9.10. Lifetime consumption  $\hat{C}_i$  and its increase from longevity  $\Delta C_i$  (millions of yen, 2011 prices) . . . . . 228

Figure 9.11. Assumption of extended retirement . . . . . 230

Figure 9.12. Effects of retirement extended by 10 years (millions of yen, 2011 prices). . . . . 232

Figure 9.13. Effects of retirement extended by five years (millions of yen, 2011 prices). . . . . 233

Figure 9.14. Ratio of ‘have subjective symptoms of physical disorders’ . . . . . 236

Figure 9.15. What age do you want to work to? . . . . . 236

Figure 10.1. ASEAN+3 FLFP, 1995–2017 . . . . . 245

Figure 10.2. Female and male labour force participation over time . . . 251

Figure 10.3. Age and cohort effects. . . . . 259

Figure 10.4. Age analysis of FLFP in Indonesia (left-hand side) and the Netherlands (right-hand side) . . . . . 259

Figure 10.5. Age and cohort effects for rural areas . . . . . 260

Figure 10.6. Age and cohort effects for urban areas. . . . . 260

Figure 10.7. Observed and predicted FLFP . . . . . 263

Figure 10.8. Projection of FLFP in Indonesia. . . . . 265

Figure 10.A.1. G20 FLFP targets . . . . . 275

Figure 10.A.2. Age and cohort effects for rural Java–Bali region . . . 275

Figure 10.A.3. Age and cohort effects for urban Java–Bali region . . . 276

Figure 10.A.4. Age and cohort effects for rural outer islands region. . . 276

Figure 10.A.5. Age and cohort effects for urban outer islands region. . 276

Figure 10.A.6. Age and cohort effects by marital status. . . . . 277

Figure 10.A.7. Age and cohort effects for females by educational attainment . . . . . 277

Figure 10.A.8. Age and cohort effects for females by number of children . . . . . 278

Figure 10.A.9. Age and cohort effects for females by village main income type . . . . . 278
