Contributors

Azlan Abas (PhD) is a senior lecturer in the environmental management program in Universiti Kebangsaan Malaysia. His research interests are ecology, ecosystem services, and environmental management.

Wahyu Diansyah is a master’s student in the environmental management program in Universiti Kebangsaan Malaysia. His research interests are forest management, forest communities, and environmental sociology.

Onyekachi Eni (PhD) is an interdisciplinary scholar, with postgraduate degrees in English and literary studies, media, and law. A member of the Nigerian Bar, Eni is also a private legal practitioner. His areas of expertise include literary criticism, environmental advocacy, and human rights. He has published widely in various national and international peer-reviewed journals.

Julia A. Flagg is the Lenore Tingle Howard ’42 Assistant Professor of Sociology and Environmental Studies at Connecticut College. Flagg is interested in understanding the drivers of national commitments to reduce emissions. She has investigated this through cross-national, comparative work and a case study on Costa Rica. Some of her prior research has been published in *Human Ecology Review* and *Environmental Sociology*. She earned her PhD in sociology from Rutgers University.

Andrew Hargrove is a visiting instructor at the Judy Genshaft Honors College at the University of South Florida. Andrew’s research uses global political economy and global political ecology perspectives to focus on the social, political, economic, and environmental factors that lead to environmental problems.

Amanda Leigh Hooykaas is an instructor with the Department of Geography, Environment & Geomatics, Executive Programs, and the School of Environmental Sciences at the University of Guelph, Ontario, Canada, an adjunct faculty member of the Faculty of Environment at the University of Waterloo, Ontario, Canada, and a Fellow of the Royal Canadian Geographic Society. She holds a PhD in geography (Waterloo), an MPhil in human ecology (College of the Atlantic), an MSW (Wilfrid Laurier University), and a BES in environment and resource studies (Waterloo).

Anwar Hussain is an Associate Professor at the Department of Economics and Development Studies of the University of Swat, Pakistan. His research work centers on environmental economics, agriculture economics, and water resource economics. He has vast teaching and research experience, and he has supervised MPhil and PhD research work in the field of environmental economics and development studies.
Hina Irshad works as an Assistant Professor of Economics at the Higher Education Department of the Government of Punjab, Pakistan. She holds an MPhil in environmental economics from the Pakistan Institute of Development Economics, Islamabad. Besides teaching, she is interested in research related to sustainable development goals, ecosystem management, and climate change adaptation.

Sara Löwgren holds a degree in human ecology from the College of the Atlantic, Bar Harbor, USA, which she attended as a Davis-Mahindra scholar. She received the Center for Applied Human Ecology award upon graduation. Currently Sara is continuing her human ecological work on energy, water, and justice at the University of Gothenburg, Sweden.

Andrew MacKenzie is an honorary senior lecturer and research Fellow with the Fenner School of Environment and Society at The Australian National University, and Campus Director of the Emalus campus in Vanuatu, University of the South Pacific. He specializes in sustainable landscape architecture and urban design.

Muhammad Irfan Malik is an Assistant Professor at the School of Social Sciences and Humanities of National University of Science and Technology, Islamabad, Pakistan. Previously, he was a researcher at Punjab Economic Research Institute, Punjab, Pakistan, and conducted research on important socioeconomic issues in Pakistan.

Chukwu Romanus Nwoma holds a PhD in English and literary studies. He is currently the Head of Department of English and Literary Studies, Alex Ekwueme Federal University, Ndufu-Alike, Ebonyi State, Nigeria. Between 2018 and 2020, he was the Coordinator of the Use of English Unit, Directorate of General Studies, Alex Ekwueme Federal University. He briefly served as the Acting Director, Directorate of General Studies, Alex Ekwueme Federal University. He has published widely in reputable journals across continents. His research interest is in environmental humanities, gender studies, African literature, and literature of the African Diaspora.

Erman Rahman is a development practitioner who currently serves as Senior Director for Programs of The Asia Foundation, Indonesia. He holds a Master of Science in Transportation degree from Northwestern University, Evanston, Illinois, USA.

Thomas (Tom) K. Rudel is an environmental sociologist and a professor emeritus at Rutgers University. Over the past four decades, he has published five books and more than seventy journal articles on issues of landscape transformation, with particular attention to issues of tropical deforestation in Latin America. His most recent publication is *Shocks, States, and Sustainability: The Origins of Radical Environmental Reforms* (Oxford University Press, 2019). *Shocks* presents a comparative historical analysis of the circumstances that led to major environmental reforms during the twentieth century.
Zaini Sakawi (PhD) is an associate professor in the environmental management program in Universiti Kebangsaan Malaysia. His research interests are social impact assessment, environmental sociology, and environmental management.

Yulia Indrawati Sari is a lecturer at International Relations Department, Parahyangan Catholic University (UNPAR) Bandung and consultant at The Asia Foundation. She is also a member of the Advisory Board of AKATIGA Foundation, a research-based NGO in Bandung. She completed her thesis at The Australian National University on community-driven development in Papua Province.

John Shandra is a Professor of Sociology at the State University of New York at Stony Brook. John’s research interests include environmental sociology, globalization, and statistics. His research articles have appeared in *Social Science Research, Rural Sociology*, and *Sociological Quarterly*.

Jamie Sommer is an Assistant Professor of Sociology at the University of South Florida. Her research on how the interactions between internal and external factors at the cross-national level impact environmental issues has been published in *Sociological Quarterly, Sociological Perspectives*, and *Society & Natural Resources*. 
This text is taken from *Human Ecology Review, Volume 27, Number 1, 2021,* published by ANU Press, The Australian National University, Canberra, Australia.
