

# Contents

## Introduction

1. Peopled landscapes: The impact of Peter Kershaw on Australian Quaternary science  
*Bruno David, Simon G. Haberle and Donald Walker* 3

## I. Archaeology and Perceptions of Landscape

2. Hay Cave: A 30,000-year cultural sequence from the Mitchell-Palmer limestone zone, north Queensland, Australia  
*Harry Lourandos, Bruno David, Nicola Roche, Cassandra Rowe, Angela Holden and Simon J. Clarke* 27
3. An early-Holocene Aboriginal coastal landscape at Cape Duquesne, southwest Victoria, Australia  
*Thomas Richards* 65
4. Aboriginal exploitation of toxic nuts as a late-Holocene subsistence strategy in Australia's tropical rainforests  
*Åsa Ferrier and Richard Cosgrove* 103
5. Terrestrial engagements by terminal Lapita maritime specialists on the southern Papuan coast  
*Ian J. McNiven, Bruno David, Ken Aplin, Jerome Mialanes, Brit Asmussen, Sean Ulm, Patrick Faulkner, Cassandra Rowe and Thomas Richards* 121
6. Otoia, ancestral village of the Kerewo: Modelling the historical emergence of Kerewo regional polities on the island of Goaribari, south coast of mainland Papua New Guinea  
*Bryce Barker, Lara Lamb, Bruno David, Kenneth Korokai, Alois Kuaso and Joanne Bowman* 157
7. Cranial metric, age and isotope analysis of human remains from Huoshiliang, western Gansu, China  
*John Dodson, Fiona Bertuch, Liang Chen and Xiaoqiang Li* 177

8. Not for the squeamish: A new microfossil indicator for the presence of humans  
*Mike Macphail, Mary Casey and Matthew Kelly* 193
9. Science, sentiment and territorial chauvinism in the acacia name change debate  
*Christian A. Kull and Haripriya Rangan* 197
10. Nature, culture and time: Contested landscapes among environmental managers in Skåne, southern Sweden  
*Lesley Head and Joachim Regnéll* 221

## II. Biogeography and Palaeoecology

11. The rise and fall of the genus *Araucaria*: A Southern Hemisphere climatic connection  
*Marie-Pierre Ledru and Janelle Stevenson* 241
12. When did the mistletoe family Loranthaceae become extinct in Tasmania? Review and conjecture  
*Mike Macphail, Greg Jordan, Feli Hopf and Eric Colhoun* 255
13. Wind v water: Glacial maximum records from the Willandra Lakes  
*Jim M. Bowler, Richard Gillespie, Harvey Johnston and Katarina Boljkovac* 271
14. Late-Quaternary vegetation history of Tasmania from pollen records  
*Eric A. Colhoun and Peter W. Shimeld* 297
15. Holocene environments of the sclerophyll woodlands of the Wet Tropics of northeastern Australia  
*Patrick T. Moss, Richard Cosgrove, Åsa Ferrier and Simon G. Haberle* 329
16. Holocene vegetation change at treeline, Cropp Valley, Southern Alps, New Zealand  
*Matt S. McGlone and Les Basher* 343
17. Vegetation and water quality responses to Holocene climate variability in Lake Purrumbete, western Victoria  
*John Tibby, Dan Penny, Paul Leahy and A. Peter Kershaw* 359
18. Fire on the mountain: A multi-scale, multi-proxy assessment of the resilience of cool temperate rainforest to fire in Victoria's Central Highlands  
*Patrick J. Baker, Rohan Simkin, Nina Pappas, Alex McLeod and Merna McKenzie* 375
19. Multi-disciplinary investigation of 19th century European settlement of the Willunga Plains, South Australia  
*Tim Denham, Carol Lentfer, Ellen Stuart, Sophia Bickford and Cameron Barr* 393

20. Modern surface pollen from the Torres Strait islands: Exploring north Australian vegetation heterogeneity 413  
*Cassandra Rowe*
21. Surface  $\delta^{13}\text{C}$  in Australia: A quantified measure of annual precipitation? 435  
*Chris S.M. Turney*
22. Palaeoecology as a means of auditing wetland condition 445  
*Peter Gell*
23. Regional genetic differentiation in the spectacled flying fox (*Pteropus conspicillatus* Gould) 459  
*Samantha Fox, Michelle Waycott, David Blair and Jon Luly*
