## 1
Linking markets for Chinese growth

**Ross Garnaut**

## 2
Mature Chinese growth leads the global Platinum Age

**Ross Garnaut and Yiping Huang**

## 3
Marketisation in China: progress and contribution to growth

**Xiaolu Wang, Gang Fan and Hengpeng Zhu**

## 4
Facing protectionism generated by trade disputes: China’s post WTO blues

**Wing Thye Woo and Geng Xiao**

## 5
Component trade and China’s global economic integration

**Kunwang Li, Ligang Song and Xingjun Zhao**

## 6
Service sector reform options: the experience of China

**Christopher Findlay, Mari Pangestu and Roy Chun Lee**

## 7
Integrating China’s agricultural economy into the global market: measuring distortions in China’s agricultural sector

**Jikun Huang, Yu Liu, Will Martin and Scott Rozelle**

## 8
Regional labour market integration since China’s WTO entry: evidence from household-level data

**Fang Cai, Yang Du and Changbao Zhao**

## 9
How much have the wages of unskilled workers in China increased? Data from seven factories in Guangdong

**Xin Meng and Nansheng Bai**

## 10
Domestic market integration and inter-regional growth spillovers

**Jane Golley and Nicolaas Groenewold**

## 11
Foreign direct investment in China: trends and characteristics after WTO accession

**Chunlai Chen**

## 12
China’s demand for energy: a global perspective

**Ligang Song and Yu Sheng**
Crouching bull, hidden bear: the Chinese equities markets in fat years and lean years
Ted Rule

How effective are China’s capital controls?
Guonan Ma and Robert N. McCauley

Reforming China’s exchange arrangements: monetary and financial sovereignty, sequencing and the foreign exchange market
Huw McKay

China’s real exchange rate
Jane Golley and Rod Tyers

An externally dependent economy and real estate bubbles
Lijian Sun and Shengxing Zhang

Economic opening and domestic market integration
Min Chen, Qihan Gui, Ming Lu and Zhao Chen

Stepping stones to market integration: the role of economic and technological development zones
Wei Zhang

The implications of China’s economic transformation for modern economics
Justin Yifu Lin

Index

Tables

2.1 Wages by province, 1999–2006

2.2 Average annual wage rates for agriculture, manufacturing, construction and finance, 1978–2005

3.1 Estimation results

3.2 Growth accounting: factor contribution to economic growth

A3.1 NERI index of marketisation for China’s provinces, 1997–2005

A3.2 The structure of the NERI index of marketisation

4.1 The distribution of the global labour force, 1990 and 2000

5.1 China’s trade in parts and components, 1992–2004

5.2 Shares of component imports trade in China, by region, 1992–2005

5.3 Share of exports of parts and components from China, by region, 1992–2005

5.4 Unit labour costs across different countries, 1992–2004

5.5 Estimation results of Equation 1: imports
5.6 Estimation results of Equation 1: exports
5.7 Estimation results of Equation 2: export shares in total manufacturing exports
6.1 Examples of restriction categories of trade in telecommunications services
A6.1 Telecommunications index components
7.1 Rural retail, urban retail and farm-gate sales prices of rice and wheat in China, 1980–2005
7.2 Nominal rates of assistance (NRA) and nominal rates of assistance for farmers (NRAf) in the cereal sector in China, 1980–2005
7.3 Nominal rates of assistance for farmers (NRAf) for soybean, cotton and sugar crops in China, 1980–2005
7.4 Nominal rates of assistance for farmers (NRAf) for livestock and horticultural sectors in China, 1980–2005
A7.1 Raw numbers for exchange rate analysis, China, 1980–2005
8.1 Migrant workers in the urban labour market, 2000–2006
8.2 Income inequality measures, 2003–2006
8.3 Inequality decomposition by provinces: general entropy, 2003–2006
8.4 Regression results of linear wage equation, 2003–2006
8.5 Theil decomposition based on regression
9.1 Industry, region, and size distribution of the sample factories
9.2 Industry distribution of the data, 2000–2004
9.3 Wage structures of the sample factories
9.4 Monthly and hourly real wages and hours worked, 2000–2004
9.5 Comparison of wages and incomes
9.6 Earnings equations for the total sample and the sample of production workers
A9.1 City level CPI
10.1 Summary of spillover effects
11.1 FDI inflows into China, 2001–2005
11.2 FDI inflows into China, by province, 1983–2004
11.3 FDI inflows into China, by sector, 2001–2005
11.4 Total assets of foreign-invested and domestic firms in the manufacturing sector, 2001 and 2005
12.1 Future growth of China’s economy, energy consumption and CO2 emissions, 2000–2020 and 2020–2050
13.1 Leading international IPOs, 2005
13.2 IPO activity in Asia, 2005
14.1 Renminbi–US dollar interest rate differential 282
14.2 Interbank rate differentials: renminbi–US dollar and Hong Kong dollar–US dollar 283
14.3 Interbank rate differentials: renminbi–US dollar and euro–US dollar 284
A14.1 Credit default swap rates for People’s Republic of China and British Bankers Association’s Libor panel banks 289
16.2 The balance sheet of the People’s Bank of China, ca. 2006 326
16.3 Regional composition in the global model 329
17.1 Estimation of random effect 360
18.1 Ranking of segmentation index by region 382
18.2 Market segmentation and its determinants 387
18.3 Market segmentation and its determinants (instrumental variable estimation) 388
19.1 GDP of five SEZs and national total, 1980–2005 397
19.2 Establishment of economic and technological development zones, 1984–2002 400
19.3 Economic indicators of the first group of 14 ETDZs, 1991, 1996 and 2005 401
19.4 Economic indicators of 54 NETDZs, 2005 404
19.5 Economic indicators of 54 NETDZs, 2006 404
19.6 Main economic indicators of the first group of 14 ETDZs, 2005 405
19.7 Average annual changes in GDP share of five CSEZs in the national total 407
19.8 High-tech enterprises in 54 NETDZs, 2005 407

Figures
2.1 Quarterly real GDP growth and CPI inflation in China, 2000–2007 10
2.2 Contribution of various components to GDP growth, 1979–2006 11
2.3 Shares of main components of GDP in China, 2000–2006 11
2.4 Growth of retail sales and fixed asset investment in China, 2005–2007 13
2.5 Some components of CPI, 2001–2007 13
2.6 Monetary conditions index of China, 2001–2007 14
2.7 Growth of property prices and Shanghai A-share prices, 2005–2007 17
2.8 Profit/asset ratios of selected industries in China, 2000–2006 17
2.9 China’s trade surpluses, 2001–2006 19
2.10 China’s current account and trade balances, 1989–2008 20
