List of tables

Table P.1. Marianas chronology with CHamoru terms. xv
Table 3.1. Whole-genome analysis results from Naton Beach, Guam. 50
Table 3.2. Radiocarbon (^{14}C) dates of human skeletal remains from Naton Beach, Guam. 51
Table 3.3. Dietary variation among Unai and Latte groups. 51
Table 3.4. Dietary variation between Latte males and females from Saipan and Guam. 52
Table 3.5. Dietary variation between Unai females and males. 52
Table 5.1. Cultural material from surface collection Quads. 77
Table 5.2. Frequencies of non-ceramic artefacts. 78
Table 5.3. Fishing equipment found in the workshop. 79
Table 5.4. Spatial variations in cultural materials in the study area. 82
Table 5.5. Comparison of latte sites using standardised frequencies (SF) (n/unit). 83
Table 7.1. GHPI numbers, owner, earliest archaeological record and reference of rock art sites included in GRAS Phase 1. 101
Table 7.2. Example of inventory standards created in DBMS showing a variety of attributes. 111
Table 7.3. Annotated GRAS data dictionary. 112
Table 7.4. Confidence ratings for anthropomorphs. 113
Table 7.5. Summary of headless anthropomorphs by colour. 116
Table 7.6. Number and per cent of headless anthropomorphs by colour and site. 117
Table 7.7. Anthropomorphs with sexual indicators by colour and sex. 118
Table 8.1. Radiocarbon analysis summary. 141
Table 11.1. Timeline of events considered significant to the church and cemetery of Malesso'. 214
Table 11.2. Age and sex distributions of the Malesso' burials (listed by burial number). 217
Table 11.3. Linear enamel hypoplasia in the Malesso' deciduous tooth sample. 219
Table 11.4. Linear enamel hypoplasia in the Malesso' permanent tooth sample. 219
Table 11.5. Cribra orbitalia in Malesso' adult (>15 years) individuals. 220
Table 11.6. Carious teeth in the Malesso' permanent tooth sample. 222
Table 11.7. Apical defects of pulpal origin in the Malesso' adult (>15 years) dentition. 222
Table 11.8. Moderate and marked attrition in the Malesso' adult (>15 years) dentition. 223
Table 11.9. Advanced appendicular osteoarthritis in Malesso' adults (>15 years) by functional unit. 224
Table 11.10. Advanced vertebral osteoarthritis in Malesso' adult (>15 years) vertebrae. 225
Table 11.11. Fractures in Malesso' adults (>15 years). 226
Table 11.12. Treponemal disease in Malesso' adults (>15 years). 227
Table 12.1. Island physical features and climate. 236
Table 12.2. Comparative statistics: Saipan and Tinian. 243
