Part I China's New Place in World Economy and Politics

1. China's place in a world in crisis	1
<i>Ross Garnaut</i>	
2. China and international financial reform	15
<i>Wing Thye Woo</i>	
3. From an efficient to a viable international financial market	33
<i>Chen Ping</i>	
4. China's increasing external wealth	59
<i>Guonan Ma and Haiwen Zhou</i>	
5. The geo-strategic implications of China's growth	89
<i>Hugh White</i>	

Part II Macroeconomic Adjustments Amid Global Recession

6. China's exchange rate policy, its current account surplus, and the global imbalances	103
<i>W. Max Corden</i>	
7. Macroeconomic performance amid global crisis	121
<i>Yiping Huang, Ken Peng and Minggao Shen</i>	
8. Economic crisis, Keynesianism and structural imbalance in China	137
<i>Xiaolu Wang and Fan Gang</i>	
9. State-owned enterprises in China: reform dynamics and impacts	155
<i>Xiao Geng, Xiuke Yang and Anna Janus</i>	

10. Economic transition and labour market integration in China	179
<i>Prema-chandra Athukorala, Kyoji Fukao and Tangjun Yuan</i>	
11. Flying geese within borders: how does China sustain its labour-intensive industries?	209
<i>Cai Fang, Dewen Wang and Qu Yue</i>	
12. Impact of economic slowdown on migrant workers	233
<i>Sherry Tao Kong, Xin Meng and Dandan Zhang</i>	

Part III Economic Integration

13. Global implications of China as a manufacturing powerhouse	261
<i>Huw McKay and Ligang Song</i>	
14. China's textile and clothing trade and global adjustment	303
<i>Will Martin</i>	
15. Inflow of foreign direct investment	325
<i>Chunlai Chen</i>	
16. Chinese foreign direct investment in the Australian resource sector	349
<i>Peter Drysdale and Christopher Findlay</i>	

Part IV The Environment and Climate Change

17. Greenhouse gas emissions reduction: a theoretical framework and global solution	389
<i>Project Team of the Development Research Centre of the State Council, People's Republic of China</i>	
18. Can China rescue the global climate change negotiations?	409
<i>Stephen Howes</i>	
19. Moving towards low-carbon economic growth	431
<i>Jinjun Xue</i>	

Index	455
-----------------	-----

Tables

2.1	The world economy in 2005, 2025 and 2050 according to GDP	22
3.1	Market variability and effective number for various aggregate indexes	40
3.2	Numbers of households and firms in the United States, 1980.	40
4.1	China's international investment position.	63
4.2	International investment positions: China and Asia, 2007	65
4.3	Determinants of China's net foreign asset position	71
4.4	Determinants of China's net foreign asset position	72
4.5	Determinants of the gross external investment positions of the OECD economies	78
4.6	China's projected gross external investment position	79
6.1	China: Surplus on Current Account, per cent of GDP	103
8.1	Outstanding debt in the United States.	142
8.2	Structural imbalance in China: growth of GDP and its components	148
9.1	Structure and performance of SOEs in large and medium-sized industrial enterprises, 2005	158
9.2	Structure and performance of top-500 Chinese enterprises in 2007, by ownership	158
9.3	Structure and performance of top-500 Chinese manufacturing enterprises in 2007, by ownership	159
9.4	Structure and performance of top-500 Chinese enterprises in the service industry in 2007, by ownership	159
9.5	Structure and performance of Fortune Global 500 in 2007, by country	160
9.6	Top-five enterprises in Asia in 2006, by revenue	160
9.7	Top-five biggest employers in the world, 2006.	160
9.8	Performance of top-500 Chinese and global companies	161
9.9	The number of industrial SOEs in China, 1995–2005	162
9.10	Assets and profits of SOEs in large and medium-sized industrial enterprises.	163
9.11	The number and performance of SOEs in the competitive market.	163
9.12	The number and performance of SOEs in the strategic market.	164

9.13	Total assets in the strategic and competitive markets in 2005.	165
9.14	Performance of NSEs in large and medium-sized industrial enterprises.	166
9.15	Structure and performance of SOEs in strategic and competitive markets, 2005	167
9.16	China's household income and consumption, 2007.	168
9.17	The number of Chinese enterprises in the Fortune Global 500	168
A9.4	Length of transportation routes	175
A9.5	Number of berths in major coastal ports	176
A9.6	Postal delivery routes	177
A9.7	Main communication capacity of telecommunications	178
10.1	China: population statistics, 1985–2005.	186
10.2	Labour force and employment	188
10.3	Registered unemployment rates by province, 1995–2005	190
10.4	Real wages (monthly) by province	195
10.5	Average wage in TVEs relative to average wages in urban private firms	199
11.1	Regression results of gross output values in log form	220
11.2	Growth and contribution of total factor productivity	221
11.3	Compensation and labour productivity of China's manufacturing, 2000–07	226
11.4	Compensation and marginal productivity of labour by region	228
12.1	Distribution of Workplaces and Rural Migrants Across City and Industry: 2007 Census Data	243
12.2	Distribution of Closed Workplaces and Shutdown Rate: 2009 Recensus Data	245
12.3	Proportion of Rural Migrant Employment Being Affected by Shutdown.	248
12.4	Attrition rates for the three trackings	251
12.5	Proportion of migrants not being found in the February 2009 tracking by city and industry	252
12.6	Regression results on probability of being tracked in each of the three trackings	254
13.1	Investment to GDP ratios during rapid industrialisation periods	266
13.2	Dynamic substitution in the United States, 1820–1913	272
13.3	Dynamic substitution in Japan, 1876–1940	272
14.1	Quota enlargement under the Agreement on Textiles and Clothing, 2004–1994	305

14.2	Estimated export tax equivalents of quotas in key supplying regions, 2002–03	306
14.3	Quotas imposed by the United States on exports from China	310
14.4	Adjustments in China’s textile export quotas to the European Community	311
14.5	China’s value shares of US textile and clothing markets . . .	312
14.6	Changes in China’s value shares of EU-27 textile and clothing markets	313
14.7	China’s share of developing-country exports of textiles and clothing	314
14.8	China’s revealed comparative advantage	316
A14.1	Export tax equivalents of clothing quotas in the United States.	320
16.1	Australia’s total merchandise trade, by trading partner	355
16.2	Australia’s merchandise exports, by trading partner	356
16.3	Australia’s merchandise imports, by trading partner	357
16.4	Chinese investment in Australia by industry, as approved by the Foreign Investment Review Board, 1992–2007	359
17.1	Emissions data for each country (hypothetical).	398
17.2	National emissions account during T0–T1	399
17.3	National emissions account during T1–T2	399
19.1	An international comparison of high-growth periods	442

Figures

3.1	Currency depreciation pressure indexes for the euro, yen, pound sterling and renminbi, January 1999 – February 1999 . . .	35
3.2	Time trajectories of various US interest rates	36
3.3	Endogenous nature of S&P 500 index movements	37
3.4	The frequency response function for the FD filter	38
3.5a	Observed market crisis	43
3.5b	Model simulation	43
4.1	The size of China’s gross foreign assets and liabilities	62
4.2	China’s net foreign asset position and stock market index . . .	62
4.3	Composition of China’s international investment position . . .	64
4.4	Current account balance, saving–investment gap and NFA position as a percentage of GDP	66
4.5	China’s demographic transition and NFA position	68
4.6	China’s NFA position, government debt and real effective exchange rate	69
4.7	China’s gross external investment position	76
6.1	China’s merchandise trade, 2000–2007	106
6.2	The Swan Diagram for China	107
7.1	Chinese export growth and US financial conditions index . .	125
7.2	CRB industrial commodity prices and crude oil price	125
7.3	Industrial production and purchasing managers’ index	127
7.4	Growth of metal production	128
7.5	Growth of industrial production: heavy versus light industry . .	129
7.6	Growth of fixed-asset investment: state-owned enterprises, residential and other	129
7.7	Growth of power generation and industrial production	130
7.8	Headline CPI, 2007, 2008 and 2009	131
7.9	CPI and bond yields	132
7.10	New loans (RMB billion)	133
8.1a	Final consumption rate and gross saving rate in China, 1952–2008	143
8.1b	Final consumption rate and gross saving rate in the United States, 1952–2008	143
8.2	Changing net exports between China and the United States, 1952–2008	144

8.3	Falling exports in China amid the economic crisis, 2008–09 . . .	149
10.1	Registered unemployment rate in urban areas	191
10.2	Growth of real urban wages by ownership of firms, 1986–2005.	193
10.3	Real wages in Sichuan and Guangdong Provinces, 1985–2007.	197
10.4	Real manual wages in urban private firms and TVEs, 1989–2005.	198
10.5	Wage share in industrial valued added by ownership category, 1995–2007	201
11.1	Leapfrogging pattern of regional growth in China	216
11.2	Regional distribution of export value of manufacturing goods	223
12.1	Kernel density estimate	250
13.1	Relative output per capita	264
13.2	Long-run rates of urbanisation	265
13.3	Investment in infrastructure: roads	267
13.4	Investment in infrastructure: railways	268
13.5	Long-run steel output per capita	269
13.6	Global export and GDP shares	270
13.7	China's adjusted world export share	274
13.8	Global imbalances: current account balances as a share of world GDP at PPP weights.	276
13.9	Net financial investment by sector, China, 1992–2006 . . .	278
13.10	Excess capacity driving excess profits?	279
13.11	Excess capacity in heavy industry requires market share gains at home and abroad	279
13.12	Decomposing China's trade balance by broad sector	280
13.13	Total fossil fuel emissions of the major economies, 1751–2006	284
13.14	Long-run energy intensities of the major industrial countries, 1840–1990	287
13.15	Elasticity of Chinese energy and electricity consumption, 1990–2007.	289
13.16	International comparison of energy consumption elasticities, selected countries, 2006	289
15.1	Global FDI inflows	327
15.2	FDI inflows into China	331
15.3	Quarterly FDI inflows into China	332
15.4	FDI inflows into China by source economies	334
15.5	FDI inflows and cross-border mergers and acquisitions in China	335

15.6	The ratio of cross-border mergers and acquisitions to FDI in the world and China	336
15.7	FDI inflows into China by sector.	337
15.8	Structural changes of FDI firms in manufacturing by total assets	339
16.1	Taxation payments to governments, 2006–07.	366
17.1	The time horizon for international emissions rights allocation	393
18.1	China’s energy intensity, 1980–2008	419
18.2	Growth in energy intensity: recent performance and targets	420
18.3	China’s energy mix, 1990–2007	421
19.1	Traditional EKC	433
19.2	The EKC with environmental constraint.	437
19.3	A new EKC with a growth model for sustainable development	439
19.4	The tunnel effect model	441
19.5	GDP growth and energy consumption in China, 1983–2005	443
19.6	Pollutant emissions in China (log tonnes).	444
19.7	China’s EKC	445
19.8	Sulphur dioxide emissions and GDP per capita, 1981–2006.	446
19.9	Energy consumption per tonne per CNY1 million GDP	447
19.10	Carbon dioxide emissions per 100 GDP production, 1990–2006.	447
19.11	Pollution control investment and its share in GDP.	448
19.12	Pollution control investment by region, 2005	449
19.13	Structure of energy consumption, 1978	450
19.14	Structure of energy consumption, 2005	450
